# Website Projects

Website Development and Brand Strategy

A registered non-profit organization that provides free journals for women who have experienced any trauma.

This is a registered non-profit I'm currently working for that has requested me to help them with website design and development. We are located in a few states including delaware, pennsylvania, maryland, and new jersey and

provide free journals to crisis centers like hospitals, police stations, women shelters, and other journal support needed places. I was told to simply design, add functionality to the website, and make sure the site works well on all devices. I also do social media management as well. Below will be the resources I use to make this happen.

- Wix
- Later
- Canva
- Google Sheets
- Slack

Description about the website:

I started this website a few months back in 2025. I wanted to originally use it as a portfolio but instead, I'm more focused on using it as a blogging website for Marketers.

Management

Google Search Console for a website's search performance between February 18 and April 20, 2025. Here's a brief breakdown:

- **Total Clicks:** 31 — the number of times users clicked through to the site from Google Search.

- **Total Impressions:** 83 — how many times the site appeared in search results.

- **Average Click-Through Rate (CTR):** 37.3% — a high percentage, indicating good relevance or appeal of the site in search results.

- **Average Position:** 28.5 — the average rank of the site's pages in search results, suggesting they're appearing on page 3 or later.
